

# TAG! You're It!™

Have you considered consigning your children's clothes but think it's just too much work? Or maybe you've cosigned before, but you are tired of getting stuck by safety pins and burned by steamers? Are you new to consigning, but are just overwhelmed by the guidelines? Let us help!

We are two moms who are seasoned veterans at consignment sales and would love to help you prep your clothes. We offer a two tiered system to help based on your needs. Even better, we provide all the supplies to prep your clothes. You don't have to do a thing except bag your items, meet us at a central location, and sit back and relax. All fees are due upfront- we won't take any of your profits after the sale! We even offer a storage option for next season's sales if you are tired of your clothes piling up waiting to be sold.

If it's completely overwhelming to tackle even the first step of going through your stuff, we'll help! We can provide support at your home to assist you in gathering and sorting your items to sell. See the reverse side for all prices and options.

*\*\*\* We ask that you please consign a minimum of 25 items per sale.*
